BOOK REVIEWS EDITOR: David Harris, Senior Lecturer, University College Chester

Educational Studies aims to provide a forum for original investigations and theoretical studies in education. Whilst the journal is principally concerned with the social sciences, contributions from a wider field are encouraged. The editorial board intends to publish fully refereed papers which cover applied and theoretical approaches to the study of education and its closely related disciplines. Such papers may take the form of reports of experimental research, review articles, shorter notes and discussions.
